PERSONAL PROJECTS

Snake Game (10/2022 - 10/2022)

- Developed a Snake game using Python's Turtle library. Designed the game to include a dynamic play area and a graphical interface.

Subjective Answer Analysis System (01/2024 - 05/2024)

- Created a platform for conducting subjective exams and evaluation of student answers based on answer script provided by teacher.

Airline Reservation System (10/2023 - 10/2023)

- Created a console based application designed to book airline tickets that allows users to book domestic and international flights, select flights, choose meals, take passenger details and make payments.
